【Notes】

All fees quoted above are per person.

Please note that embarkation schedules are subject to change due to the changes of flight schedules.

Only couples or friends can share twin room. If you end up traveling alone, you will be charged with single room rate.

The events (SPECIAL) are scheduled base on the previous data, but are not guaranteed.

Please understand that schedules will be changed subject to the condition of the sea.

From January 1st, 2023, all guests are required to pay PGST tax: 10% on all payments.

Dates marked with a ★ indicate direct flights between Narita and Palau operated by UA.

Dive computer	\$11.00
Reef hook	\$11.00/per cruise
Safety sausage (required by law)	\$5.50

★ **[SKILL and LEVEL]**

LEVEL S (Standard route)

General standard style of diving is provided in Palau. Buoys are available on many of the dive sites, however it is better that you are able to do a free descend, also you should be able to make safety stop and keep neutral buoyancy by yourself.

Recommended level: - Less than 2 years dive blank. And,

- More than 80 dives experience if your age is under 60.
- More than 150 dives experience if your age is over 60.

LEVEL G (Advanced route) Enriched air certification required

All of the dive sites have no buoys. Advanced skills required because most of dive sites have strong current. It is necessary for you to descend immediately, head-first descend probably. If you lost your dive guide or team while you are diving, you must have enough skills to make your safety stop and ascend along calmly.

Recommended level:- Less than 1 year dive blank. And,

- More than 150 dives experience if your age is under 60.
- More than 300 dives experience if your age is over 60.

LEVEL P (Special route) Enriched air certification required

Most of dive sites have strong and complex current, and no buoys. You need to be in good physical condition and be able to swim continuously underwater and surface. Also, you have to follow and response to every single sign from your dive guide immediately.

This cruise bound for outside reef, farther from the main land, meaning it is not easy to get rescue under any circumstances and emergency.

You must have to keep good physical condition while you are on board.

Recommended level: - Less than 6 months dive blank. And,

- More than 200 dives experience if your age is under 60.
- More than 400 dives experience if your age is over 60.
